SPECIAL INGREDIENTS

Chelated Trace Minerals - chelated minerals allow easy passage through the intestinal wall into the blood resulting in increased metabolism of that mineral. dac LQ-Performance utilizesXXXXXXX organic minerals to increase availability and enhance

Organic Selenium - Selenium is an essential nutrient that plays a critical role in metabolism, healthy growth, reproductive health, and immunity. It also acts as a powerful antioxidant to prevent fatty acid oxidation which can cause tissue damage.

Chromium – is a chromium propionate that is approved by the FDA. It helps drive glucose into the cell to be used as energy, helps improve metabolic and immune system response and helps improve health and performance.

Lysine - is the 1st limiting amino acid in equine diets. It is essential for synthesis of muscles and bone.

Balance Calcium and Phosphorus – both calcium and phosphorus are added in the correct ratio to help satisfy requirements for these critical components of bone.

B-Vitamins - are added to stimulate appetite and aid in generation of fuel for athletic performance.

Form and Flavor – liquid form and strawberry banana flavor
