VETERINARIAN RECOMMENDED

Yucca 5-Way PAC

ACTIVE INGREDIENTS

(Per 1 oz.)

Yucca Shidigera Extract	781 mg
Zinc Amino Acid Complex	182 mg
Manganese Amino Acid Complex	100 mg
Copper Amino Acid Complex	63 mg
Cobalt Amino Acid Complex	6.3 mg

FEEDING DIRECTIONS

FOR USE IN HORSES ONLY

May help reduce inflammation associated with normal daily exercise.

Administer **dac® YUCCA 5-WAY PAC** at the following rates:

Mature Horse	1 oz. (1 scoop) per horse per day

Administration based on 1000 lb. body weight. Administration should be adjusted according to body weight.

Do not feed to sheep.

CAUTIONS: If animal's condition worsens or does not improve, stop product administration and consult your veterinarian. Safe use in pregnant animals or animals intended for breeding has not been proven. An examination from a veterinarian is recommended prior to using this product.

WARNINGS: Not for human consumption. Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.

SPECIAL INGREDIENTS

Yucca Schidigera Extract – Active components of yucca include steroidal saponins and polyphenolics such as resveratrol and yuccaols. Yucca phenolics also are antioxidants and free-radical scavengers which may aid horse health. Yucca has also been known for its ability to reduce ammonia (NH_3) from animal waste.

Bio-available Trace Minerals – or chelated minerals are those that have been bonded to two or more amino acids. A mineral in this chelated state allows easy passage through the intestinal wall into the blood resulting in increased metabolism of that mineral. **dac® YUCCA 5-WAY PAC** utilizes organic minerals to increase availability and enhance absorption rates.

Bio-available Copper – is essential in the synthesis and maintenance of connective tissue.

Bio-available Zinc – is a micro mineral found throughout the body including in bone and muscle.

Bio-available Manganese – is essential for the synthesis of chondriotin sulfate necessary in cartilage formation. Deficiency results in abnormal cartilage and bone development.

FEATURES

- Yucca Schidigera Extract
- Bio-available Trace Minerals
- May help reduce inflammation associated with training and competition
- May help ease aches associated with normal daily exercise and activity
- Supports animals joint tenderness due to every day activity

dac® YUCCA 5-WAY PAC provides a trace mineral profile suitable for all classes of mature horses. Minerals play a critical role in numerous metabolic functions including: reproduction, bone development, nerve function, immune function, hoof, skin and coat quality as well as energy balance.

INACTIVE INGREDIENTS

Distillers dried grains with solubles, yeast culture, vegetable oil, sodium bentonite, natural flavor, calcium carbonate, dried bacillus subtilis fermentation product, mineral oil, dried bacillus licheniformis fermentation product and maltodextrin.
