

# BRACE

**Helps soothe soreness and discomfort  
in horses due to exercise, stress or  
overexertion**

dac®BRACE is a topically applied product used to help soothe sore muscles from competition, stress or overexertion. dac®BRACE is applied directly to the skin before or after exercise or anytime needed. It is rapidly absorbed and can be used alone or mixed with other topically applied products. dac®BRACE can be applied to the pasterns, cannon bones, knees, hocks, stifles, or other external problem areas. dac®BRACE can be used on any horse. Will not leave a sticky residue. Designed for horses, but is safe for all animals.

#### KEY INGREDIENT BENEFITS:

- Noni Juice** - Helps reduce soreness and stress
- Aloe Vera** - Reduces inflammation & helps dry or chapped skin
- Red Algae Extract** - Conditions and hydrates the skin
- Peppermint Oil** - Adds a cooling effect to the skin

#### DIRECTIONS:

Hand apply generous amounts directly to the pasterns, cannon bones, knees, hocks, stifles, or other external problem areas before, or after exercise or as needed.
