

Digestive Feed Additive "DDA"

VETERINARIAN
RECOMMENDED

- F E A T U R E S**
- Assists in the digestion and absorption of essential nutrients
 - Enhanced with Probiotics
 - Yea-Sacc®1026 – 5g / 2 oz
 - Integral® A+ – 4.6g / 2 oz
 - Helps maintain gut flora in the digestive tract
 - Promotes intestinal well being

dac® DIGESTIVE FEED ADDITIVE provides a nutritional aid to support digestion for horses. **dac® DIGESTIVE FEED ADDITIVE** is enhanced with probiotics.

INGREDIENTS

Distillers dried grains with solubles, calcium carbonate, brewers dried yeast, yeast culture, hydrolyzed yeast, corn oil, dried Lactobacillus acidophilus fermentation product, dried Entero-coccus faecium fermentation product, zinc methionine complex, zinc proteinate, manganese proteinate, copper proteinate, cobalt proteinate, choline chloride, dextrose, sodium aluminosilicate, hydrated sodium calcium aluminosilicate, and natural and artificial flavor.

AVAILABLE SIZES:

- 5# Bag
- 20# Bag
- 40# Bag

Vitamins & Minerals

GUARANTEED ANALYSIS

(Per 1 oz.)

Crude Protein (min)	12% (3,400 mg)
Crude Fat (min)	.6% (1,700 mg)
Crude Fiber (max)	.6% (1,700 mg)
Calcium (min)	.9% (2,550 mg)
Calcium (max)	10% (2,835 mg)
Copper (min)	85 ppm (2.4 mg)
Zinc (min)	470 ppm (13.3 mg)
Manganese (min)	220 ppm (6.2 mg)
Cobalt (min)	8 ppm (0.22 mg)
<i>Saccharomyces cerevisiae</i> (min)	(12.4 billion cells)
<i>Lactobacillus acidophilus</i> (min)	(283 million CFU)
<i>Enterococcus faecium</i> (min)	(283 million CFU)

FEEDING DIRECTIONS

dac® DIGESTIVE FEED ADDITIVE can be fed with either fortified or unfortified grains. Fortified grains contain added vitamins and minerals. **dac® DIGESTIVE FEED ADDITIVE** can be fed to all classes of horses. Feed **dac® DIGESTIVE FEED ADDITIVE** at the following rates:

Horses:

1000 lbs. or larger	2 oz. per horse per day
500-1000 lbs.	1 oz. per horse per day
Less than 500 lbs.	1/2 oz. per horse per day

Do not feed to sheep.

SPECIAL INGREDIENTS

YEA-SACC®

Yea-Sacc®1026 - is a live yeast culture derived from the specific yeast strain *Saccharomyces cerevisiae* 1026. **Yea-Sacc®1026** increases fiber, phosphorus and calcium digestibility in mares, and increases gross energy, total lipids and amino acid absorption. **Yea Sac®1026** improves milk availability to foals if administered for 3-4 weeks before and throughout the lactation period.

BIOPLEX®

Bio-available Trace Minerals- or chelated minerals are those that have been bonded to two or more amino acids. A mineral in this chelated state allows easy passage through the intestinal wall into the blood resulting in increased metabolism of that mineral. **dac® DIGESTIVE FEED ADDITIVE** utilizes organic minerals to increase availability and enhance absorption rates.

BIO-MOS®

Bio-Mos® - is derived from a specific strain of yeast and improves animal performance. Gastrointestinal (GI) health and integrity is essential for animal performance and **Bio-Mos®** 'feeds the GI tract' and thus plays a critical role in animal nutrition and performance.

INTEGRAL® A+

Integral® A+ - is a natural solution to help animals achieve their true potential. Its highly successful technology has proven efficacy in over 65 peer-reviewed in-vivo trials.

Probiotics- are live microorganisms (including beneficial strains of bacteria) thought to be beneficial to the horse. These natural additives help maintain the correct balance of microflora in the large intestine and cecum to help bypass nutrients be completely digested in the gut.
