NO ADDED COPPER.

FEEDING DIRECTIONS

dac® SHOW CONTENDER RIPPED can be fed to cattle, goats, sheep, and swine intended for showing. Feed **dac® SHOW CONTENDER RIPPED** at the following rates:

Swine, goats, and sheep with a body weight less than 125 lbs: Feed 4.5 cc (ml) per head per day.

Swine, goats, and sheep with a body weight of 125 - 275 lbs: Feed 9 cc (ml) per head per day.

Cattle and show animals with a body weight over 275 lbs: Feed 4.5 cc (ml) per 100 lbs of body weight, Maximum dose is 20 cc (ml) per animal per day.

1 pump application provides approximately 1.5 cc (ml) of dac® Show Contender Ripped. Therefore, 4.5 cc (ml) would equal 3 pumps and 9 cc (ml) would equal 6 pumps.
