## F E A T U R E S

- Assists in the digestion and absorption of essential nutrients
- Balances the animal's intestinal microflora
- Contains direct-fed microbial cultures to supply beneficial microorganisms that occur naturally in the gut of healthy animals
  - Promotes intestinal well being
  - Supports digestion and absorption
- Contains Spore forming bacteria that can withstand harsh environments and therefore last longer and are more efficacious
- Produced through cold extrusion so probiotics remain in most efficacious state

## NUTRITIONAL SUPPLEMENT FOR DOGS TO SUPPORT DIGESTIVE TRACT HEALTH
